Brainstorm & Idea Prioritization Template

Date	13 July 2026
Team ID	SWTID-2026-8698
Project Name	Nutrition Assistant
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 🕒 10 minutes to prepare
- 🕒 1 hour to collaborate
- 👤 2-8 people recommended

Before you collaborate

Work together as a team to identify a nutrition-related problem, generate multiple solution ideas, evaluate their feasibility and impact, and select the best idea for developing the Nutrition Assistant application.

Team Members

T.manohar
T. Arunkumar
Akula Munilokthisri
Devireddi Krishna Rupa
Bhumana Pravallika

Goal

Collaborate as a team to identify a real-world health problem, generate innovative solution ideas, evaluate them based on feasibility and impact, and select the best idea for development.

1

Define your problem statement

Clearly define the problem your team wants to solve. A well-defined problem statement helps generate focused and effective solution ideas.

PROBLEM

How might we help users generate personalized nutrition plans based on their health details and fitness goals while making healthy eating simple and accessible?

Key rules of brainstorming

To run a smooth and productive session

- 👤 Stay in topic.
- 💡 Encourage wild ideas.
- ⏸️ Defer judgment.
- 👂 Listen to others.
- 🗣️ Go for volume.
- 👁️ If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Generate as many ideas as possible without judging them. Encourage creativity and record every idea that could contribute to solving the problem.

TIP

People struggle to calculate calories and choose healthy meals based on their personal health diets.

Person 1

Nutrition Assistant

BMI Calculator

Calorie Tracker

Person 2

Meal Planner

AI Food Recommendations

Diet Preference (Veg/Non-Veg)

Person 3

Water Intake Reminder

Progress Tracker

Healthy Recipe Suggestions

3

Group Ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

TIP

The selected idea provides personalized nutrition plans using age, weight, height, activity level, and fitness goals.

Health Monitoring

- BMI Calculator
- Water Reminder

Nutrition Planning

- Nutrition Assistant
- Meal Planner
- AI Food Suggestions

Fitness

- Fitness Tracker
- Progress Charts
- Calorie Tracker

Step-3: Idea Prioritization

4

Prioritize

Evaluate each idea based on its importance and feasibility. Prioritize the ideas that provide the greatest value and can be successfully implemented.

TIP

Future enhancements include AI recommendations, BMI calculation, weekly meal planner, progress charts, and downloadable diet plans.
